CONSTITUTION FOR
FLORIDA PUBLIC EMPLOYEES COUNCIL NUMBER 79
OF THE
AMERICAN FEDERATION OF STATE, COUNTY AND MUNICIPAL EMPLOYEES
AFL-CIO

AFSCME Council 79

PREAMBLE

Workers organize labor unions primarily to secure better wages and better working conditions.

We hold that they also organize in order to participate in the decisions which affect their work. One of the fundamental tenets of democratic government is the consent of the governed. Unions are an extension of that idea.

Union members are both workers and citizens.

Collective bargaining is an expression of citizenship in employment. Participation in the political life of the nation is but another aspect of that citizenship. In the same way that unions are dedicated to the improvement of the terms and conditions of employment, we are equally dedicated to exert ourselves, individually and collectively, to fulfill the promise of American life.

For unions, the workplace and the polling place are inseparable, and the exercise of the awesome rights and responsibilities of citizenship are equally required at both.

Unions are under a solemn obligation: to represent members forcefully and effectively in negotiations with management and to conduct internal union affairs according to democratic standards.

Therefore, we, delegates assembled in an official convention of Florida Public Employees Council 79 of the American Federation of State, County and Municipal Employees, hereby adopt this Constitution and this Bill of Rights.

BILL OF RIGHTS

The Bill of Rights for Union Members contained in the Constitution of the International Union shall be fully applicable to this Council:

Bill of Rights for Union Members

1. No person otherwise eligible for membership in this union shall be denied membership on a basis of unqualified equality, because of race, creed, color, national origin, sex, or political belief.
2. Members shall suffer no impairment of freedom of speech concerning the operations of this union. Active discussion of union affairs shall be encouraged and protected within this organization.
3. Members shall have the right to conduct the internal affairs of the union free from employer domination.
4. Members shall have the right to fair and democratic elections at all levels of the union. This includes due notice of nominations and elections, equal opportunity for competing candidates, and proper election procedures which shall be constitutionally specified.
5. Members shall have an equal right to run for and hold office, subject to constitutionally specified qualifications, uniformly applied.

- 2 -

6. Members shall have the right to a full and clear accounting of all union funds at all levels. Such accounting shall include, but not be limited to, periodic reports to the membership by the appropriate fiscal officers and periodic audits by officers elected for that purpose or by independent auditors not otherwise connected with the union.
7. Members shall have the right to full participation, through discussion and vote, in the decision-making processes of the union, and to pertinent information needed for the exercise of this right. This right shall specifically include decisions concerning the acceptance or rejection of collective bargaining contracts, memoranda of understanding, or any other agreements affecting their wages, hours, or other terms and conditions of employment. All members shall have an equal right to vote and each vote cast shall be of equal weight.
8. Charges against a member or officer shall be specific and shall be only on grounds provided in this constitution. Accused members or officers shall have the right to fair trial with strict adherence to due process. The accused shall be considered innocent until proven guilty.

ARTICLE I NAME AND OFFICES

Section 1. The name of this organization shall be Florida Public Employees Council Number 79 of the American Federation of State, County and Municipal Employees, AFL-CIO.

Section 2. The Council shall maintain an office in the City of Tallahassee, Florida and in such other locations as the Council Executive Board may determine to be necessary and appropriate.

ARTICLE II AFFILIATION

This Council is chartered by and shall be affiliated with the American Federation of State, County and Municipal Employees, AFL-CIO.

ARTICLE III OBJECTIVES

The purpose of this Council shall be to carry out the objectives of the American Federation of State, County and Municipal Employees, AFL-CIO and to:

- a. Promote and extend the organization of public employees and workers in general;
- b. Conduct negotiations and bargain collectively for wages, hours, and working conditions for all local unions within the jurisdiction of the Council;
- c. Promote legislation and political action through a united effort of all AFSCME locals in the State of Florida;
- d. Foster cooperation among affiliated locals;
- e. Provide research, educational and organizational services and activities designed to assist members and affiliates;
- f. Represent local unions: (1) on grievances which reach the highest level; (2) before legislative and administrative bodies, councils, commissions and

- 3 -

committees; and (3) in any other matter to carry out the objectives of the Council and the International Union; and

- g. Cooperate with other labor organizations in particular and other segments of our society in general toward the end that the material riches of American society be more justly distributed and the moral promise of American life be realized.

ARTICLE IV MEMBERSHIP AND REVENUE

Section 1. All AFSCME local unions in the State of Florida shall become and remain affiliated with this Council.

Section 2. Per capita tax shall be paid to this Council by each affiliated local union on the number of individual monthly dues payments received by the local during each month. Effective June 1, 2001, the per capita rate shall be \$13.33 per month. Effective January 1, 2002, the per capita rate shall be \$14.33 plus the amount of the annual adjustment required by the International Constitution. Each January, thereafter, this rate shall be adjusted in accordance with the provisions of the International Constitution. Monthly per capita tax payments shall be made to the Council on the same number of members as are reported in the local's report to the International Union.

Section 3. The per capita tax for members who have regular work schedules of twenty (20) or fewer hours per week shall be 25% less than the rate established in Section 2 above, provided that the local union dues rate for such members is set at an amount sufficiently below the rate paid by other members to reflect in full the lower per capita tax rate.

Section 4. In accordance with International Constitution, dues deductions of an affiliated local union shall be transmitted directly by the employer to this Council. The Council Treasurer shall then deduct the constitutionally established per capita tax for the Council and shall deduct and pay, on behalf of the local union, its constitutionally established per capita tax to the International Union not later than the 15th day of the month following the month in which such dues are received by the Council. The Council Treasurer also shall deduct and pay such other amounts as may be requested by the local union. After the foregoing deductions have been made, the remaining amount shall be transmitted to the local union, together with an accounting of all amounts received and all payments made on behalf of each local union.

Section 5. Failure of a local union to remit its Council per capita tax for any month by the 15th day of the following month shall result in the local being declared delinquent. Failure of a local to remit its Council per capita tax for any month within thirty (30) days after such local has been declared delinquent shall result in the local's automatic suspension from the privileges and benefits of this Council. Suspension shall remain in effect until all overdue per capita tax has been paid.

Section 6. The Council Treasurer shall notify the International Union President and Secretary-Treasurer of all delinquent or suspended locals and of all reinstatements.

ARTICLE V THE CONVENTION

Section 1. All sovereign power of this Council shall be vested in the Council Convention when in Session.

Section 2. Regular conventions shall be held once every two years commencing in 1992. The time and place for the holding of the convention shall be set by the Council Executive Board; provided, however, that the convention shall begin at some time between the first day of September and the last day of December. However, during the off year, specialized education training will be offered.

- 4 -

Section 3. Special conventions may be called at any time and upon at least thirty (30) days' notice by a two-thirds vote of the Council Executive Board, or by the Council President with the approval of a majority of the Council Executive Board. One-third of the affiliated locals, by resolution properly adopted and forwarded to the Council Secretary, can compel the calling of a special convention for the purpose or purposes set forth in the resolution. A special convention also can be called by the International President or by an authorized representative of the International President.

Section 4. The basis of representation in Council conventions shall be the average number of members on which per capita tax was actually paid to the Council by each affiliated local union for the twelve month period ending with the second full month prior to the opening of the convention. In the case of any local organized or affiliated after the beginning of the twelve month period, the basis of representation shall be the average number of members on which per capita tax was actually paid to the Council for the full number of months for which per capita tax has been paid.

Section 5. Representation will be based on the number of members in each local. The formula used for ascertaining the number of delegates for each local shall be as follows:

One hundred members or fewer, one delegate
More than 100 but not exceeding 200, two delegates
More than 200 but not exceeding 300, three delegates
More than 300 but not exceeding 400, four delegates
More than 400 but not exceeding 500, five delegates
More than 500, one additional delegate for each 500 additional members or fraction thereof.

Local unions may elect one alternate delegate for each delegate.

Section 6. Regardless of the number of delegates, locals shall be entitled to vote on the basis of one vote for each member or fraction thereof. Locals entitled to more than one delegate may send fewer than their quota of delegates and the delegates present may cast the entire vote of the local on all recorded votes and elections coming before the convention. The number of votes shall be divided equally among the delegates with any remaining votes to be cast by the chairperson of the delegation, as designated by the local. No fractional votes shall be permitted.

Section 7. Each delegate must be a member in good standing of the local such delegate represents. Any member of the Council Executive Board who is not elected as a delegate representing a local union shall nevertheless be entitled to all the rights and privileges of a delegate except the right to vote.

Section 8. At least sixty (60) days prior to each regular convention, the Council Secretary shall send to each local a Convention Call, accompanied by the appropriate number of credential forms. In the case of a convention at which the election of officers is to take place, this shall be indicated in the Convention Call.

Section 9. No local union shall be entitled to representation in any convention of the Council unless all of its per capita tax and other just obligations to the International Union and the Council have been paid in full by or on the day credentials are presented at the convention.

Section 10. To vote, delegates must be on the floor when a vote is taken. Voting by proxy shall not be permitted. All issues shall be decided by a majority vote of the accredited delegates voting, except as otherwise specifically provided in this Constitution.

Section 11. Any resolution to be introduced to the convention shall be submitted, in writing, to the Council Secretary not later than ten (10) days prior to the opening of the convention. Thereafter, no resolution can be introduced except by permission of two-thirds of the convention; provided, however, that the Council President or the Council Executive Board may introduce a resolution for consideration by the convention at any time the convention is in session.

- 5 -

Section 12. All delegates and alternates to the convention of the Council shall be elected in accordance with the provisions of Appendix D, Elections Code, of the International Union Constitution. The names of such delegates shall be certified by the appropriate officers of the locals to the Council Secretary at least ten (10) days prior to the time of the convention.

Section 13. No delegate may represent more than one local union.

Section 14. Expenses of delegates attending Council conventions shall be the responsibility of the delegates or their respective local unions.

Section 15. A quorum for the transaction of business shall consist of delegates representing not less than one-third of the affiliated locals which are entitled to representation at a Council convention.

Section 16. Local union presidents shall be automatic delegates to all special conventions of this Council, unless the local union constitution provides for a different automatic delegate.

Constitution and Bylaws

PREAMBLE

As almost every improvement in the condition of working people has been accomplished by the efforts of organized labor and as the welfare of wage, salary, and professional workers can best be protected and advanced by their united action in one International Union, we have organized the Service Employees International Union and have adopted the following Constitution:

SEIU MISSION STATEMENT

We are the Service Employees International Union, an organization of more than 1 million members united by the belief in the dignity and worth of workers and the services they provide and dedicated to improving the lives of workers and their families and creating a more just and humane society.

We are public workers, health care workers, building service workers, office workers, professional workers, and industrial and allied workers. We seek a stronger union to build power for ourselves and to protect the people we serve.

People of every race, ethnicity, religion, age, physical ability, gender, gender expression and sexual orientation, we are the standard-bearers in the struggle for social and economic justice begun nearly a century ago by janitors who dared to dream beyond their daily hardships and to organize for economic security, dignity and respect.

Our vision is of a society:

Where all workers and their families live and work in dignity.
Where work is fulfilling and fairly rewarded.

Where workers have a meaningful voice in decisions that affect them.

Where workers have the opportunity to develop their talents and skills.

Where the collective voice and power of workers is realized in democratic and progressive unions.

Where union solidarity stands firm against the forces of discrimination and hate and the unfair employment practices of exploitative employers.

Where government plays an active role in improving the lives of working people.

To achieve this vision:

We must organize unorganized service workers, extending to them the gains of unionism while securing control over our industries and labor markets.

We must build political power to ensure that workers' voices are heard at every level of government to create economic opportunity and foster social justice.

We must provide meaningful paths for member involvement and participation in strong, democratic unions.

We must develop highly trained and motivated leaders at every level of the union who reflect the membership in all its diversity.

We must bargain contracts that improve wages and working conditions, expand the role of workers in workplace decision-making, and build a stronger union.

We must build coalitions and act in solidarity with other organizations who share our concern for social and economic justice.

We must engage in direct action that demonstrates our power and our determination to win.

To accomplish these goals we must be unified—inspired by a set of beliefs and principles that transcends our social and occupational diversity and guides our work.

We believe we can accomplish little as separate individuals, but that together we have the power to create a just society.

We believe unions are the means by which working people build power—by which ordinary people accomplish extraordinary things.

We believe our strength comes from our unity, and that we must not be divided by forces of discrimination based on gender, race, ethnicity, religion, age, physical ability, sexual orientation or immigration status.

We believe our power and effectiveness depend upon the active participation and commitment of our members, the development of our leaders, and solidarity with each other and our allies.

We believe we have a special mission to bring economic and social justice to those most exploited in our community—especially to women and workers of color.

We believe our future cannot be separated from that of workers in other parts of the world who struggle for economic justice, a decent life for their families, peace, dignity and democracy.

We believe unions are necessary for a democratic society to prevail, and that unions must participate in the political life of our society.

We believe we have a moral responsibility to leave the world a better place for our children—and everyone's children.

The International President is empowered to construe the jurisdiction above defined to embrace all classifications of workers within any establishment anywhere in the world.

Section 2(a). The International Union shall have jurisdiction over the Local Unions and their members and over all affiliated bodies.

(b). The term "affiliated bodies" shall include State and Provincial Councils, Joint Councils, Service Councils, area, regional, or industry Conferences and Divisions, organizing committees, and provisional locals, and such other bodies on the local, national or international level as the International Union shall from time to time establish, but shall not include Local Unions. The term "Local Union" shall not include any other affiliated body.

Section 3(a). Any person employed in any employment over which this International Union claims or exercises jurisdiction shall be eligible to be considered for membership in the International Union, a Local Union, organizing committee, provisional local or other authorized body of this organization. A Local Union may adopt additional membership requirements in the Local Union's Constitution and Bylaws. Jurisdiction may also be construed as including service within a Local Union or affiliated body of the International Union but each Local Union shall have the option to determine whether a person with such service may be eligible for membership in the Local Union. The International Executive Board may set eligibility requirements and other criteria (including rates of dues) for associate members and other special categories of membership in the International or in affiliated bodies established in accordance with this Constitution.

(b). Self-employed individuals doing work within the jurisdiction of this International Union may be eligible for membership in Local Unions, subject to any additional requirements provided for in a Local Union's Constitution and Bylaws, but unless a Local is entirely composed of such self-employed workers, they shall not be eligible for election as Executive Officers of the Local nor shall they be permitted to vote on acceptance or rejection of proposed collective bargaining agreements to cover the conditions of employment of other than self-employed workers. The International President shall have the right to make all necessary rules and regulations respecting self-

employed workers, under the jurisdiction of this International Union.

(c). With the approval of the International Union, Local Unions may establish different categories of membership and rates of dues for persons represented and not represented by the Local Union for collective bargaining purposes including, but not limited to, life members, retired members and associate members.

(d). Any dispute respecting membership or eligibility for membership shall be decided by the International President, with the Local Union or the applicant having a right to appeal his or her decision to the International Executive Board, in writing, within 10 days after notice of said decision is received.

Section 4. No member shall discriminate or advocate discrimination against any other member on the basis of race, creed, color, religion, sex, gender expression, sexual orientation, national origin, citizenship status, marital status, ancestry, age or disability.

Article IV CONVENTION—REPRESENTATION THEREIN

Section 1. The Convention of this International Union shall meet every four years and shall convene at such time and place as the International Executive Board may determine upon the recommendation of the International President.

Section 2. Special Conventions may be called upon order of the International Executive Board to convene at such time and place as the Board may determine, and any and all business, including appeals from suspensions and decisions of the International Executive Board, may come before such Special Convention unless specifically limited by the call. Notice of such call shall be given to each Local Union at least 60 days prior to the date of the Special Convention along with the number of delegates to which said Local Union is entitled. All other provisions of this Article shall control all Special Conventions.

Section 3. The International Convention shall consist of duly elected delegates from their Local Unions, and none but delegates duly elected in accordance with all applicable statutes and the provisions of this Constitution and Bylaws shall be eligible to

represent any Local Union at the International Convention or be entitled to vote except that all full-time International officers shall by virtue of their office be delegates with a voice but no vote to any Convention which is held during their term of office. All officers of a Local Union elected in conformity with all applicable statutes shall by virtue of such election be considered to be eligible delegates to any International Convention which may take place during their term of office. If at the time of the receipt of the Convention call it shall appear that such number of elected officers is less than the number of delegates to which the Local Union will be entitled at an International Convention, then arrangements may be made at the option of the Local Executive Board for nomination and secret ballot election, if required, of an additional number of eligible members as Convention delegates. Nominees for such position, if unopposed, shall be deemed elected without necessity for further procedures. The Local Union must designate in its Constitution and Bylaws the order in which the officers would be designated as delegates and alternates if less than all the officers are entitled to go to the Convention as delegates, provided that the chief executive officer of the Local Union shall, if otherwise eligible, be deemed entitled even in the event the Local Union fails to so designate. Any Local Union may by provision in its Local Constitution and Bylaws dispense with the foregoing provision that officers of the Local Union be ex officio delegates to the International Convention and may provide for nomination and, if required, secret ballot election of such delegates. Further, subject to applicable statutes, the International Executive Board may establish representation rules for delegates from groups of associate members or other special categories of membership or locals, which shall be set forth in the notice of Convention Call for the International or Special Convention. In no event shall the basis of representation for such groups be greater in numbers than the formula set forth in Section 4 below. Any voting rights extended to such delegates must comply with applicable law.

Section 4. The basis of representation shall be one delegate for 500 members or less, and one additional delegate for every additional 500 members or major fraction thereof up to 5,000 members, and then one additional delegate for every additional 1,000 members or major fraction thereof. A determination to be represented by less than a full complement of delegates shall not affect the Local Union's eligible votes. The Executive Board of a Local Union shall determine the number of delegates which shall represent it at the Convention. For the purpose of voting, the

computation of membership for a Local Union shall not include life members, retired members paying less than the full dues required for working members of their Local Union, associate members or agency fee payers.

Section 5. In addition to the representation in Section 4, each Local Union with a retired members group of more than 500 members shall be entitled to one retired member delegate who shall serve with a voice and a vote at the Convention. Only retired members who have been members in good standing for 60 days prior to the Convention as either members, retired members, or life members of the Local Union shall serve as a retired member delegate. The retired member delegate shall be selected by the procedures provided for in the Local Union's Constitution and Bylaws for selecting such a retired member delegate or by the Local Union's Executive Board where no procedures are provided for in the Local Union's Constitution and Bylaws. The retired member delegate shall not be permitted to vote on dues or to nominate or vote for officers at the Convention.

Section 6. No delegate shall be permitted to represent more than one Local Union.

Section 7(a). No Local Union that has not been chartered, affiliated, and in good standing for at least one month prior to the opening of the Convention shall be entitled to representation in the Convention, and each Local Union to be entitled to said representation must have paid into the International treasury at least one month's per capita tax prior to the opening of the Convention.

(b). For a Local Union to be entitled to representation at the Convention, all moneys due the International Union, whether by per capita tax or otherwise, and due to any affiliated bodies, whether by per capita tax or otherwise, and all moneys due for any pension or welfare funds provided for in this Constitution, must be paid at least 15 days prior to the opening of the Convention.

Section 8. The International Secretary-Treasurer shall issue a Call for the Convention and notify each Local Union at least 100 days prior to the date of the Convention of the number of delegates to which said Local Union is entitled, and shall furnish credential blanks in duplicate to the Local Union. Credentials issued to delegates shall bear the signatures of the President and Secretary of the Local Union.
